

Practise duplicating the patterns in the style of Edward Tingatinga.

Choose 1 colour- this could be pencil crayon, paint, crayon, pastel or anything you have at home (it does not have to be blue).

Try to create 4 different tones using the same colour like the example below.

If you are using pencil crayon, crayon or pastel think about the pressure you apply (how hard/light you press). If you are using paint, think about adding white to create a lighter tone.
