

Task 1

Draw symbols on the map to show the weather described below.
Use the compass to help you.

Tomorrow's Weather

- It will be sunny in Northern Ireland
- It will be windy on the west coast of Scotland
- There will be light rain in Wales
- There will be heavy rain in Southern England
- It will be cloudy with some sunshine in Northern England
- The east coast of Scotland will be foggy
- It will be sunny along the east coast of England

sunshine

wind

fog

cloud, some sunshine

light rain

heavy rain

Task 2

Draw symbols on the map to show the weather described below.
Use the compass to help you.

Tomorrow's Weather

The weather looks good for everyone in Wales and Northern Ireland tomorrow. It'll be mostly sunny, with some clouds.

It'll be sunny on the west coast of Scotland, too, with some light rain in the east.

It's not so good for Southern England, unfortunately! There will be strong winds and heavy rain and even thunderstorms in one or two places.

It's slightly better in Northern England, where it will be cloudy with some light rain.
