Task 2- Using the diary entry below, complete the comic strip with a sentence about what the children did on their day in Norway and draw a picture to go with each box.

Dear Diary,

This morning I wore an extra t-shirt under my jumper - it was freezing! I looked out of the window. It was completely dark.

My dad drove me to school. I was glad that his car tyres had metal studs on them. They helped grip the icy, snow-covered road.

In the afternoon, we went out onto the school sports field. It's got floodlights so we can exercise outside during winter, when it's dark all day. We made ramps out of snow and ski-jumped over them.

In the evening, Mum and I sat on the wooden steps outside our house. We drank hot blackcurrant and watched the beautiful Northern Lights.
